**FROM FINANCIALS TO FAMILY PHOTOS,
CARBONITE KEEPS WHAT'S IMPORTANT
SAFE IN THE CLOUD.**

AUTOMATIC CLOUD BACKUP

You'll never have to remember to back up again! Carbonite runs continually in the background, backing up new and changed files whenever your computer is connected to the Internet.

SECURE, OFFSITE STORAGE

Carbonite creates encrypted copies of your files and transmits them to one of our state-of-the-art data centers using SSL security technology.

HASSLE-FREE FILE RECOVERY

When you need to get your files back, Carbonite walks you through a quick process that restores your backed up files to the right place on your computer.

ANYTIME, ANYWHERE ACCESS

Not at your computer? You can get to your backed up files from any computer connected to the Internet or even from your smartphone with a free app.
